

Relief T

Unique polymer matrix

HOW TO USE:

Tear at the v-notches at the aluminium foil bag

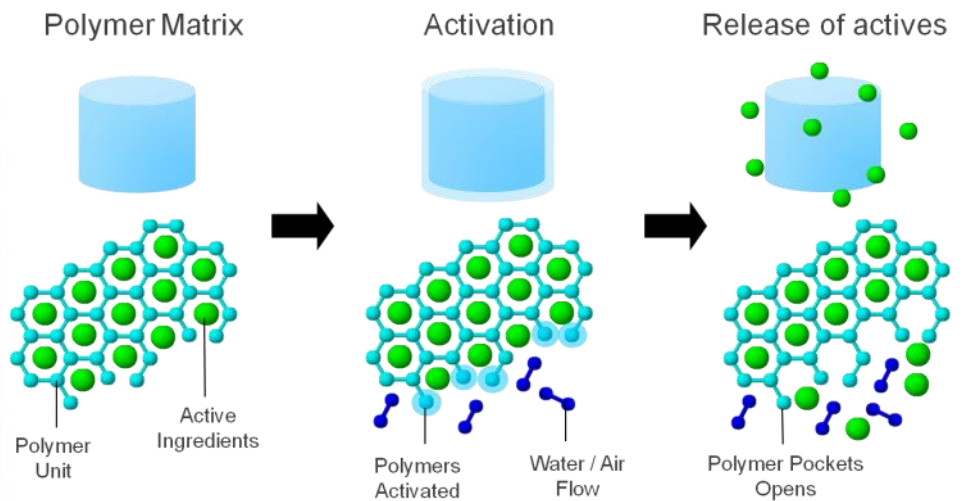

Ready for direct application

OR

To be use with netting

Unique features

- Continuous treatment for 1 month
- 100% water soluble
- Adhere to base and does not get flushed away
- Bright yellow color for easy identification
- Unique packaging — Easy application
- 100% larvae mortality within 24 hours

Relief T

Where to apply:

Relief T prevents emergence of adult mosquito from mosquito breeding sites.

Relief T is designed to release effective levels of active ingredient Temephos into mosquito breeding sites, continuously.

Relief T can be used to control mosquitoes larvae in areas such as storm drains, roof gutters, catch basins, roadside ditches, ornamental ponds, fountains, artificial water-holding containers, waste treatment and settling ponds, abandoned swimming pools, construction depressions, freshwater swamps and tree holes.

Relief T is manufactured with a patented controlled release technology and manufacturing processes, which enable consistent and long lasting performance.

product specifications

Application	1 block treats 200 Litres of water for 1 month (Subject to environmental conditions)
Active Ingredient	Temephos 1%
Product Weight	30 grams
Product Colour	Lemon Yellow
Product Size	43mm (Diameter), 19 mm (Height)
